D/A: Mr. Harvey J. Winter, Department of STATE, advised [ ] that the problem of CONTROL OF THE EXPORT OF TECHNICAL DATA had been referred to a Subcommittee of ICIS, which would meet Friday, 4 May, at 10:30 a.m. at the Department of JUSTICE. He REQUESTED that CIA BE REPRESENTED and asked if CIA's position, previously taken, was still valid. [ ] advised that the position was still as stated by DCI in his letter to the Secretary of Commerce. Mr. Winter stated that they desired renewed expression of the value to CIA of published materials received from the Soviet bloc in exchange arrangements. [ ] ARRANGED with [ ] O/SI, TO ATTEND THE MEETING. Mr. Winter stated that the Department of Defense was advocating export control of published data, but that the Department of State felt that the only effective control would be at the pre-publication level. D/I:

[ ] conferred with [ ] of O/SI to consider standardizing the section of the CIA LIBRARY CODE PERTAINING TO AIRCRAFT MANUFACTURING. Their opinion is that the present method of searching through the index to find some heading under which documents may be coded is time-consuming and results in miscoding. This causes loss to researchers. Their suggestion that basic industries, such as aircraft, be given a separate code so that information on the subject would be consolidated is indorsed by B/Air. For the interim, B/Air has suggested a revised code for 743.1 Aircraft and Aircraft Components Production. (3 hours) (30 April)
